SKILLS

- ★★★★☆ JavaScript, Python
- ★★★★☆ React, Redux
- ★★★★★ SQL
- ★★★★★ Front-End
- ★★★★★ HTML-5
- ★★★★★ Data Visualization
- ★★★★☆ Git & Github
- ★★★★☆ Statistical Analysis
- ★★★★★ Excel VBA
- ★★★★☆ Figma
- ★★★★☆ CSS-3, Tailwind

CERTIFICATION

- Front-End Engineer Career Path
Codecademy 02 Jan 2022
- Statistics Foundation 1
Linkedin 23 Mar, 2024
- SQL
IBM 12 Jul, 2023
- Python for data science. AI and Development
IBM 08 May, 2023
- Data Science Methodology
IBM 22 Mar, 2023
- What is Data Science
IBM 22 Jan, 2023
- Data Scientist with Python
DataCamp 22 DEC, 2022

EDUCATION

September 2019 – August 2023

COMSATS UNIVERSITY ISLAMABAD ABBOTTABAD CAMPUS

Bachelor's degree of Software Engineering,

- Completed with all Software engineering subjects. Software which helps to build Saas project and Documentation.
 - Process models, waterfall, incremental, evolutionary.
 - Agile process models, Scrum, crystal, ASD, DSDM and FDD
 - Software Engineering Practice, user requirements
 - Requirement Engineering, task, initiating, Eliciting.
 - Building Analysis Model, Data Modeling, Object-oriented analysis, Scenario based, Flow oriented and Class-based
 - Testing, webpage, model testing, algorithms testing,
 - Management, Quality, Risk, Change, project Scheduling
 - Soft Skills, Communication, Interpersonal, Detail oriented, conversant and creating. In computer science, programmers can talk to human and machine

July 2017 – June 2019

DAANISH BOYS SCHOOL DERA GHAZI KHAN

Intermediate.

- Completed with all science subjects in English medium.
 - Mathematics
 - Physics
 - Computer
 - Ethics & Discipline

June 2015 – June 2017

DAANISH BOYS SCHOOL DERA GHAZI KHAN

Matriculation,

- Completed with all science subjects in English medium.
 - Mathematics
 - Biology
 - Physics
 - Chemistry
 - Ethics & Discipline

PROJECTS

CAREER CONNECT

- User profile creation and management
- Job listing search and filtering
- Application tracking and management
- Employer-candidate matching system
- Resume/CV uploading and sharing
- Interview scheduling and notification system
- Responsive design for mobile and desktop
- Live Demo: [Career Connect](#) Code available on [GitHub Repository](#). (its private)

MY TRAVEL JOURNAL

- Adding and managing travel entries with locations, dates, and descriptions
- Uploading and displaying travel photos with each entry
- Organizing trips by destination, date, or category
- Interactive map integration to visualize travel history
- Sharing travel experiences on social media platforms
- Responsive design for mobile and desktop browsing
- Live Demo: [My Travel Journal](#) Code available on [GitHub Repository](#).

PUMPKINS MEME PICKER

- Filtering memes by mood or category
- Browsing a curated collection of pumpkin memes
- Selecting and displaying chosen memes
- Sharing favorite memes with friends
- Responsive design for mobile and desktop
- Live Demo: [Pumpkins Meme Picker](#) Code available on [GitHub Repository](#).

MINI RESTAURANT APP:

- A frontend-only ordering app with core features.
- Key functionalities include:
- Adding/removing items from the cart
- Viewing cart summary with total price
- Placing orders with customer details
- Responsive design for mobile and desktop
- Live Demo: [Mini Restaurant App](#)
- Code available on [GitHub Repository](#).

Softwares & Tools

- vs code
- Google & Bing Search Engine
- Git & GitHub

Language & libraries

- HTML, CSS & JavaScript
- React, redux, hooks
- APIs
- Material UI
- npm/yarn package managers

Softwares & Tools

- WebStorm/vs code
- Google & Bing Search Engine
- Git & GitHub

Language & libraries

XIMBA (MINI X CLONE)

- I build the x clone just its frontend and some functionalities for fun.
- You can post, like and just interact share icon, more will come
- Uploaded on my [portfolio website](#).
- learn: data attributes, uuid, object destructuring, and more
- Its free and open to use, let chat connect with static friend.
- [click here](#)

RANDOM PASSWORD GENERATOR

- I build the random password generator application.
- This project demonstrates my skills in creating secure, user-friendly interfaces and implementing robust algorithms.
- Uploaded on my [portfolio website](#).
- This generate random passwords based on customizable criteria.
- Its free and open to use, let's secure your accounts.
- [click here](#)

BLACK JACK GAME

- Developed an interactive Blackjack game using HTML, CSS, and JavaScript.
- The project showcases my ability to design and implement engaging user interfaces, manage game logic, and ensure a responsive and dynamic user experience.
- You also can play its free, [click here](#)

UNIT CONVETER

- Developed a Unit Converter application using HTML, CSS, and JavaScript
- This project demonstrates my ability to create intuitive user interfaces
- In this it can handle various unit conversion logic, and ensure a seamless and responsive user experience.
- Convert your length or volume, [Unit Converter](#)
